Project

Queensgate Farnborough Hampshire

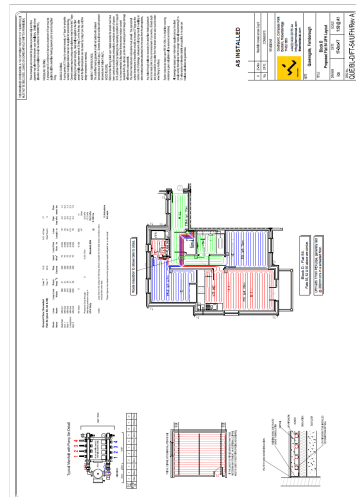

Project Brief

Working with Inland Homes, Thermotec were asked to provide a complete design and installation scheme, in compliance with the latest environmental and technological heating systems.

Scope of Works

Thermotec delivered a fully integrated floor build up system from the sub-floor base to the final floor screed using our TPA11 Aquafloor Cliprail underfloor heating system and insulation using latest touchscreen thermostats. The project was managed, installed and supervised by Thermotec, and was delivered on time and within budget.

Project Value: £6M

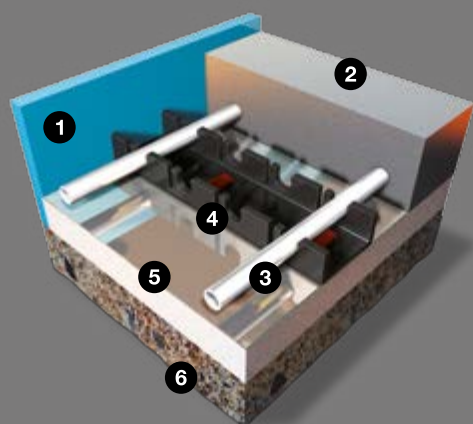

Project Details

Queensgate, sets the standard for modern day apartment living in the home counties. Every aspect of this innovative collection of 1 and 2 bedroom homes reflects a contemporary design ethos geared towards today's busy lifestyles. Energy efficient measures are incorporated as standard throughout the development and each apartment is constructed to a high specification with stylish yet durable fixtures and finishes.

5,578 m²
