Project Brief

In consultation with Verefield Limited, Thermotec were asked to provide a complete design and installation scheme, in compliance with the latest environmental and technological heating systems.

Scope of Works

Thermotec delivered a fully integrated floor build up system from the sub-floor base to the final floor screed using our TPA11 Aquafloor Cliprail System with standard controls throughout all apartments. The project was managed, installed and supervised by Thermotec, and was delivered on time and within budget.

Project Details

Verefield Limited created a new exclusive development of only four character flats each having their own private garden area.

160m²
