## Specifications

---

Manifold cabinets are supplied in a white enamel finish, giving a neat professional look and requiring no further decoration. Designed specifically to house our manifolds, they are equipped with the necessary fixing points and also have flow/return pipework entries that can be configured on-site to suit specific requirements. The door section has a telescopic action to allow for variations in wall thickness and any plaster or rendering applied to the wall. The in-wall cabinet caters for a typical dry-lined partition wall, allowing a neat and flush finish. manifold cabinet sizes the new CircoMax pump/blender unit is one of the slimmest units of its kind on the market, and will fit within all of our manifold cabinet range.
